Hide My Folders ActiveX

Hide My Folders ActiveX Full Crack is a utility that can be used to effectively protect confidential folders, files and applications that contain sensitive data from unwanted access. Hide my Folders Deluxe offers a variety of advance features that will help people protect their files from unwanted access. For example, an unlimited number of files and folders can be hidden at once, without any annoying time limitation or inaccessibility of use. Furthermore, this utility will provide its users with an exceptional solution for encrypting their files and folders, since it will enable them to enter a strong password for the encryption key, thereby increasing the security level of the whole process. For enhancing their protection capabilities even more, Hide My Folders Deluxe will also offer the users the opportunity to print out the passwords that were used for protecting their files or folders. Get a variety of exclusive features in a simple to use application This simple yet efficient application offers a variety of advanced features that will help people protect their sensitive data from unwanted access. For example, the utility will allow people to choose either a global or a local hide mode, for hiding the preferred content, including files and folders. Furthermore, for the people who require a fully automatic way of protecting their files and folders, the application will also provide them with a built-in hide command. This will allow them to hide all the desired content with just a few clicks of the mouse. The main focus is also on the encrypting process, for which it provides the users with an exceptional feature called the encrypt password. With this, the users can protect their password that has been used to encrypt their files or folders. Nevertheless, in order to protect their password more efficiently, Hide My Folders Deluxe also offers the users the option of printing it out. For those who need to print their documents, folders and files, the utility will provide them with a print option. Hide My Folders Deluxe still uses the most up-to-date methods for increasing security, which means that any method of accessing the encrypted files and folders is completely impossible. Due to its exceptional security mechanisms, the application will enable its users to share the files and folders among different computers on the Internet, without the risk of losing their encrypted status. Hide my Folder is a simple, user-friendly and easy-to-use utility that will help people protect their important files from unwanted access. For example, people will be able to select the location for hiding their files, the size of files that should be hidden, and the number of files and folders to b7e8fd5c8
